Education

Federal University of Technology — Minna, Niger State
Bachelor of Engineering in Computer Engineering — *Dec. 2024 – Present*

Experience

Frontend Developer (Students Projects) — Dec. 2024 – Present
Federal University of Technology Minna — *Minna, Nigeria*

- Worked with frameworks like React and Tailwind CSS for modern UI design
- Developed a full-stack web application using TypeScript, React, PostgreSQL, and Docker to analyze GitHub data in collaboration with fellow students
- Explored ways to visualize GitHub collaboration in a classroom setting
- Integrated APIs and handled basic state management in web apps

AI & Software Engineering Trainee (IEEE/She Inspire Program) — June 2025
IEEE/She Inspire — *Minna, Nigeria*

- Assisted in training beginners on fundamentals of Artificial Intelligence and Machine Learning
- Explained basic concepts like data, models, and simple algorithms
- Collaborated with a team to organize and deliver tech tutorials

Collaborative Tutor (University Initiative) — Aug. 2025 – Present
Brainstorm Group — *Minna, Nigeria*

- Worked with course representatives and fellow tutors to organize tutorials for different courses
- Helped students understand core Engineering and programming concepts
- Improved peer learning and collaboration within the department

Projects

Stock Market Prediction Machine | *JavaScript, React, Chart.js, Docker* — Jan. 2025 – Present

- Developed a full-stack web application to analyze and visualize stock market trends
- Utilized Chart.js to render trend lines and interactive charts
- Designed data visualizations to display market movement patterns
- Managed application state and handled asynchronous data fetching in React

Health IoT Dashboard | *JavaScript, React, Chart.js, Docker* — Dec. 2024 – Present

- Developed a frontend web application to visualize medical health vitals from a hardware IoT system
- Utilized Chart.js to display vital trend comparisons across multiple metrics
- Designed interactive visualizations to present patient vitals collected from hardware components
- Managed application state and handled asynchronous data fetching in React

Technical Skills

Languages: JavaScript, TypeScript, HTML/CSS
Frameworks: React, Tailwind CSS
Developer Tools: Git, Docker, VS Code, GitHub
Libraries: Chart.js
